ATM & BRANCH NETWORKING

How is a credit union supposed to compete with the resources and exposure of banks?

One of the biggest barriers to joining a credit union is the perception that they're too small — not part of a giant national network, like the big banks. ATM fees and branch networking can be the most glaring example of this problem.

But through Michigan Solutions' ATM and branch network, your credit union can provide no-fee ATM and branch access almost anywhere

CU Solutions Group can provide ATM branch networking through CO-OP Financial Services, granting members the *convenience* and widespread access they demand from their financial institution. Nationwide branch and ATM access, for credit unions of all sizes: now *that's* competition.
