

WEB ENHANCEMENTS

Take your site to the level your members expect.

Today, customers expect a complete banking experience online. From applying for loans and getting a credit card to calculating interest and opening a checking account, members rely on technology to perform these tasks from the

comfort of their home. Technology Solutions from CU Solutions Group® can help credit unions build out their sites to satisfy their members at a cost that makes sense.

WEB ENHANCEMENTS

Keeping up with website demands can be painful.

Today's digital-savvy banking customers expect access and functionality from everywhere. Your credit union website needs to provide tools to help them do everything from shop for loans to pay their babysitter. Most credit unions lack the resources to build and implement these sophisticated digital systems. That's where we come in.

CU Solutions Group makes web enhancements easy.

CU Solutions Group® has created Scalable Mobile App. We offer web enhancements that will transform your credit union's website into a functional, self-serve resource for your members. We'll help you quickly and seamlessly integrate tools for real-time loan decisions, member enrollment, financial calculators, board portals or any number of custom processes.

Building web enhancements for your credit union will create new efficiencies and cost-saving measures across the board. Members will be satisfied with the on-demand, self-serve functions while you free up time and resources for your branch.

A library of options.

In addition to creating custom web enhancements, we developed a library of easy-to-integrate, turnkey web enhancements designed to meet the specific needs of credit unions and their members.

Key features

- **Loan Decision+**™ includes credit reporting, ID verification, screening and automatic loan decisioning online
- **Xpress Membership** allows people to open and fund accounts quickly and easily online
